

PANDAS TASKS

1. Create a Pandas DataFrame from a dictionary.
2. Create a DataFrame with 5 rows and 3 columns.
3. Display the first 5 rows of a DataFrame.
4. Display the last 3 rows of a DataFrame.
5. Check the shape of a DataFrame.
6. Display column names of a DataFrame.
7. Get basic information about a DataFrame using one function.
8. Select a single column from a DataFrame.
9. Select multiple columns from a DataFrame.
10. Select a row using `iloc`.
11. Select rows where a column value is greater than a given number.
12. Filter rows using multiple conditions.
13. Count the number of rows in a DataFrame.
14. Find the mean of a numeric column.
15. Find the maximum and minimum value of a column.
16. Count unique values in a column.
17. Sort a DataFrame by a column.
18. Find rows with missing values.
19. Add a new column to a DataFrame.
20. Update values in an existing column.
21. Drop a column from a DataFrame.
22. Rename a column in a DataFrame.

USING CSV (NUMPY & PANDAS)

1. Read the CSV file using Pandas.
2. Display the first 5 rows of the dataset.
3. Display the last 5 rows of the dataset.
4. Find the number of rows and columns.
5. Display column names and their data types.
6. Check if there are any missing values.
7. Display only the `Name`, `Department`, and `Salary` columns.
8. Find all employees working in the IT department.
9. Filter employees whose salary is greater than 60,000.

PANDAS TASKS

10. Find employees with more than 5 years of experience.
11. Display all employees from Bangalore.
12. Convert the `Salary` column into a NumPy array.
13. Calculate the average salary using NumPy.
14. Find the maximum and minimum salary using NumPy.
15. Increase all salaries by 10% using NumPy.
16. Find the average salary for each department.
17. Count the number of employees in each department.
18. Find the highest salary in each department.
19. Add a new column `Bonus` equal to 10% of salary.
20. Create a new column `TotalIncome` as `Salary + Bonus`.
21. Sort the dataset by salary in descending order.
22. Find employees who joined after 2020 and have a performance score of 8 or more.
